Task:

Work systematically to make number bonds to ten using a tens frame and two different small items.

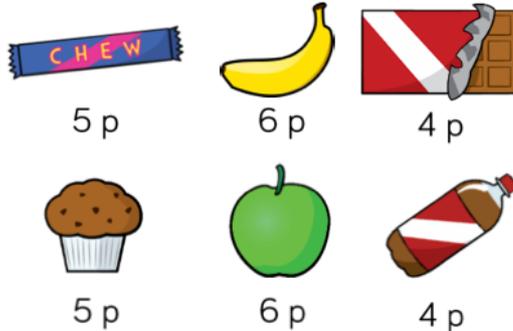

You can choose to work with number bonds to 10, 20 or both!

Extension question:

1)

Parent answer:

Dora has 10 p to spend.

A chew bar and a muffin.
A banana and a chocolate bar.
A banana and a bottle of pop.
An apple and a chocolate bar.
An apple and a bottle of pop.

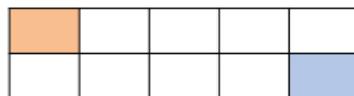

Which two items could she buy?
How many different ways can she do it?

2)

Parent answer:

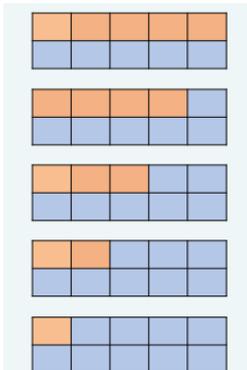

Tommy needs to colour in **all** of the boxes using two different colours.

One box of each colour has been done for him.

How many different ways can he colour the boxes?

Can you write the number bonds that you have coloured?

This can also be the other way where there are 9 oranges and 1 blue, 8 oranges and 2 blues, 7 oranges and 3 blues, 6 oranges and 4 blues.
